ALPHABETIC LIST OF COMPANIES	76
------------------------------	----

Mašīnbūves un metālapstrādes rūpniecības asociācija (MASOC) kopš 1994.gada pārstāv asociācijas biedru un nozares kopējās intereses un īsteno kopīgus projektus biedru un nozares konkurētspējas stiprināšanai. MASOC apvieno virs 170 vadošos nozares uzņēmumus, saistītos pakalpojumu sniedzējus, pētniecības un izglītības institūcijas.

GALVENIE DARBĪBAS VIRZIENI IETVER:

INTEREŠU PĀRSTĀVNICĪBA

Pastāvīgi tiek nodrošināta sadarbība un dialogs ar valsts pārvaldes institūcijām, lai sekmētu nozares attīstībai būtisku jautājumu risināšanu. Pārstāvot biedru intereses tiek nodrošināta cieša sadarbība ar Latvijas Tirdzniecības un rūpniecības kameru un Latvijas Darba devēju konfederāciju. Eiropas līmenī intereses tiek pārstāvētas ar Eiropas Inženierozaru asociācijas ORGALIME starpniecību, kuras biedrs ir MASOC.

IZGLĪTĪBA, CILVĒKRESURSU ATTĪSTĪBA UN JAUNATNES PIESAISTE

Tiek īstenota sadarbība ar visām nozīmīgākajām profesionālās un augstākās izglītības institūcijām, Izglītības un zinātnes ministriju, kā arī organizēti pasākumi jaunatnes piesaistei mācībām un studijām inženierzinātnēs un nozarei būtiskās profesijās. Viens no MASOC organizētajiem projektiem – Tehnobuss, ir ceļojoša mobila demo laboratorija, kura ir aprīkota ar modernām tehnoloģijām un ikdienā organizē nodarbības skolās ar mērķi ieinteresēt jauniešus inženierzinātnēs. Apmācību projekta ietvaros uzņēmumiem ir pieejams atbalsts darbinieku kvalifikācijas celšanai un tālākpmācības kursu īstenošanai.

MĀRKETINGS UN EKSPORTA VEICINĀŠANA

Asociācijas biedru produkti, tehnoloģiskās iespējas un sadarbības piedāvājumi tiek reklamēti starptautisko izstāžu, vizīšu un tirdzniecības misiju ietvaros. Ik gadu tiek publicēts uzņēmumu katalogs LATVIAN METAL INDUSTRY, kas ietver informāciju par visu asociācijas uzņēmumu piedāvāto produkciju, pakalpojumiem un tehnoloģiskajām iespējām. Tiek organizēti kopīgi stendi starptautiskajās izstādēs un braucieni uz kontaktu veidošanas pasākumiem, piesaistot atbalstu no ES fondiem.

SAVSTARPĒJĀ SADARBĪBA UN KOOPERĀCIJA

Savstarpējā sadarbība un kooperācija tiek veicināta īstenojot kopīgus projektus un pasākumus, kā arī nodrošinot nepieciešamās informācijas apmaiņu. MASOC pastāvīgi uztur un atjauno datu bāzi par uzņēmumu tehnoloģiskajām iespējām un kompetencēm, līdz ar to atvieglojot sadarbības partneru meklēšanu. Regulāri tiek rīkoti kopīgi pasākumi, kuru ietvaros ir iespējas neformālo kontaktu veidošanai ar citiem nozares uzņēmumiem, zināšanu un labas prakses apmaiņai.

PĒTNIECĪBA UN INOVĀCIJAS

Mašīnbūves kompetences centra ietvaros tiek sniegts atbalsts jaunu produktu un tehnoloģiju attīstības projektiem. MASOC cieši sadarbojas ar augstākās izglītības un pētniecības institūcijām, t.sk. iesaistoties kopīgos inovāciju projektos ar studentiem. Arvien lielāks uzsvars tiek likts uz digitalizāciju un progresīvo ražošanas metožu ieviešanu, kur iesaiste nacionālā un Eiropas līmeņa platformās MASOC biedriem dod piekļu zināšanām, ekspertu atbalstam un jaunākajiem digitāliem risinājumiem.

INFORMĀCIJA

Pastāvīgi tiek analizētas nozares attīstības tendences gan Latvijā, gan galvenajos eksporta tirgos. Tiek analizēta tehnoloģisko iespēju attīstība nozares uzņēmumos, situācija ar ražošanas jaudu noslodzi, esošajiem un trūkstošajiem speciālistiem, kā arī cita ar nozares attīstību saistīta informācija. Potenciālajiem sadarbības partneriem MASOC piedāvā atbalstu sadarbības partneru piesaistē un kontaktu veidošanā.

Lai kļūtu par pilntiesīgu biedru, piedalītos aktivitātēs un pilnvērtīgi izmantotu biedriem sniegtās priekšrocības aicinām iepazīties ar kārtību kā kļūt par biedru.

KLASTERA PROJEKTS

Projekts (Nr. 3.2.1.1/16/A/011) "Metālapstrādes klastera attīstība" tiek īstenots ar mērķi veicināt uzņēmumu savstarpējo sadarbību un īstenot kopīgus pasākumus uzņēmumu starptautiskās konkurētspējas stiprināšanai.

GALVENIE DARBĪBAS VIRZIENI:

- Eksporta veicināšanas un ārējā mārketinga aktivitātes – kopīgu stendu organizēšana starptautiskajās izstādēs, vizīšu, tirdzniecības misiju organizēšana, dalība kontaktu veidošanas pasākumos, mārketinga un publicitātes materiālu izstrāde.
- Studentu konstruktoru birojs – sadarbība ar tehnisko specialitāšu studentiem datorizētās konstruēšanas un projektēšanas jomā. Uzņēmumiem ir iespēja pasūtīt sev nepieciešamos projektēšanas, rasēšanas un konstruēšanas darbus, kurus pieredzējušu speciālistu uzraudzībā veic studenti, darbu īstenošanai saņemot finansiālu atbalstu no projekta.
- Efektivitātes un produktivitātes paaugstināšana – iespēja piedalīties pieredzes apmaiņas pasākumos, saņemt konsultatīvu atbalstu un piedalīties vizītēs uz jauno tehnoloģiju izstādēm.
- Savstarpējā sadarbība – iespēja paplašināt savu kontaktu un partneru loku piedaloties kopīgos pasākumos ar citiem nozares uzņēmumiem

MAŠĪNBŪVES KOMPETENCES CENTRA PROJEKTS

"Mašīnbūves kompetences centrs" projekta (Nr. 1.2.1.1/18/A/008) ietvaros ir iespējams saņemt finansiālu atbalstu pētniecības projektiem, kurus paredzēts īstenot līdz 2022. gada vidum. Centra darbības ietvaros tiek sniegts atbalsts jaunu produktu un tehnoloģiju izstrādei (rūpnieciskie pētījumi un eksperimentālās izstrādes)

Pētījumu īstenošana notiek četros pētniecības virzienos:

- Automatizētu inženiersistēmu ražošanas tehnoloģijas
- Materiālu ražošanas tehnoloģijas
- Transporta tehnoloģijas
- Starpnozaru pētījumi

APMĀCĪBU PROJEKTS

MASOC piedāvā piedalīties apmācību projektā (Nr. 1.2.2.1/16/A/002) "Nodarbināto apmācības mašīnbūves un metālapstrādes nozarē" un atgūt finansējumu (mazie komersanti 70%; vidējie 60% un lielle 50%)

Projekta ietvaros ir iespējamas mācības šādās jomās - Projektu vadība; Ražošanas inženierzinības un vadība; Datoru lietošana; Datorsistēmas, datubāzes un datortikli; Inženierzinātnes un tehnoloģijas; Ražošana un pārstrāde; Vides aizsardzība; Valodas; Elektroniskā komercija; Mārketinga un tirdzniecība; Biznesa vadība; Kvalitātes nodrošināšana un vadība. Mācības tiek organizētas pēc uzņēmēju pieprasījuma.

SME AISLE EKSPORTA PROJEKTS

Vēlaties iekarot jaunus eksporta tirgus? Doties uz Namībiju projekta SME Aisle ietvaros, iespējams, ir vislabākā izvēle!

Projekts SME Aisle piedāvā atbalstu MASOC uzņēmumiem, lai dotos uz Namībiju, Dienvidāfriku un Zambiju biznesa vizītēs, prezentējot savu uzņēmuma produkciju un tehnoloģijas Āfrikā, nodrošinot tikšanās ar potenciāliem sadarbības partneriem un atbildīgajām valsts institūcijām.

Projekta mērķis – sekmēt Latvijas un centrālās Baltijas (CB) uzņēmumu eksportu uz Āfrikas dienvidu reģiona valstīm, izmantojot Namībiju kā drošu ieejas punktu.

ADMA TRANS4MERS MVU VIEDĀKAS RAŽOŠANAS ATBALSTA PROJEKTS

ADMA TranS4MERS (H2020-2018-2020, INNOSUP-08-2020, 101037866) piedāvā palīdzību ražojošu mazo-vidējo uzņēmumu izaugsmei un pārejai uz viedāku – nākotnes ražošanu. Projekta ietvaros uzņēmumi saņems nepieciešamās apmācības un palīdzību jaunu tehnoloģiju ieviešanā.

Since 1994, the Association of Mechanical Engineering and Metalworking Industries (MASOC) has been representing the common interests of the association's members and industries and has been implementing joint projects for strengthening the competitiveness of the members and the industry. MASOC brings together more than 170 leading industry companies, the related service providers, research and education institutions.

THE MAIN AREAS OF ACTIVITY:

REPRESENTATION OF INTERESTS

Cooperation and dialogue with public administration institutions is provided constantly in order to contribute to solving the issues important for industry development. By representing the interests of its members, close cooperation with the Latvian Chamber of Commerce and Industry and the Employers' Confederation of Latvia is provided. At the European level the interests are represented through the European Engineering Industries Association ORGALIME, MASOC being a member of it.

EDUCATION, HUMAN RESOURCES DEVELOPMENT AND YOUTH ATTRACTION

Cooperation with all major professional and higher education institutions and the Ministry of Education and Science is organised, as well as activities for attracting young people to studies of engineering sciences and industry related occupations are being implemented. One of the projects organised by MASOC – Tehnobuss – is a travelling mobile demonstration laboratory equipped with modern technologies that organises daily classes for schools with the aim of promoting interest in young people about engineering sciences. Within the training project companies are provided support for increasing the qualification of their staff and for implementation of the further training process.

MARKETING AND EXPORT PROMOTION

Products, technological capabilities and cooperation offers of the association members are promoted at international exhibitions, visits and trade missions. Every year the company catalogue LATVIAN METAL INDUSTRY is published, which includes information on the products, services and technological capabilities offered by all companies of the association.

MUTUAL COOPERATION AND COLLABORATION

Mutual cooperation and collaboration is promoted through the implementation of joint projects and activities, as well as by providing the necessary exchange of information. MASOC constantly maintains and updates the database on the technological capabilities and competences of the companies, thus facilitating the search for cooperation partners. Regular events are held, during which there are opportunities for creating informal contacts with other companies in the sector, exchange of knowledge and good practices.

RESEARCH AND INNOVATION

Mechanical Engineering Competence Centre is an initiative established by MASOC that provides support for development of new products and technologies. Close co-operation is ensured between MASOC and higher education and research institutions, including involvement of students in innovation projects. Digitalisation and advanced manufacturing is another area where MASOC is involved in several National and European level platforms. This provides MASOC members with access to top knowledge, expertise, tools and solutions in the area of digitalisation and advanced manufacturing.

INFORMATION

The development trends of the industry both in Latvia and in the main export markets are constantly analysed. The development of technological capabilities in companies of the industry, the situation of the production capacity load, the existing and missing specialists, as well as other information related to the development of the industry is analysed. MASOC offers support to the potential members for attracting cooperation partners and establishing new contacts.

SUBCONTRACTING

Many of the companies in the sector are involved in subcontracting activities. Altogether the member companies cover the whole spectrum of metal processing technologies making it possible to produce parts and components of any level of complexity. MASOC constantly maintains a database of technological capabilities of the member companies making it possible to find the right supplier both for local and foreign partners.

PARTNER SEARCH

We offer information about technological capabilities and competences of the companies; assistance in finding suppliers and cooperation partners; effective subcontracting network covering the whole range of metal processing technologies; single contact point for information and inquiries. We offer organisation of incoming trade missions and site visits to our member companies. Potential partners are welcome to contact MASOC and we will help to arrange B2B meetings and assist with logistics support.

TehnoBuss

MASOC has been implementing the TehnoBuss project since September 2015, with the aim of generating interest in engineering sciences in school youth and informing them of opportunities for learning, study and career development in the industry.

TehnoBuss is a mobile demonstration laboratory built on the bus platform, which is equipped with modern, full-function technological stands, equipment and tables for automated processing of various materials, which school youth can not only look at during classes, but also try themselves.

This year is the seventh season of TehnoBuss, and to date it has lectured in almost 410 schools in all regions of Latvia, 43 300 students have attended its classes, and interest in TehnoBuss classes is still very high.

TehnoBuss focuses on the enhanced promotion of co-operation between educational institutions, employers and young people, this is why we call for the cooperation of educational institutions, and other stakeholders who support and are interested in promoting the interest of young people in the education and career path in engineering.

Additionally "Tehnobuss" cooperates with partners and takes part in exhibitions, regional events and career choice-related events such as Tech Industry, "Metāla dienas" in Jelgava, creativity and technology festival iNOVUSS by the Investment and Development Agency in Latvia, festival SkillsLatvia by the State Education Development Agency of the Republic of Latvia etc. "Tehnobuss" has also participated in summer camps and cooperates with our neighbor partners in Lithuania and Estonia

Ar mērķi radīt skolu jaunatnē interesi par inženierzinātnēm, informēt tos par mācību, studiju un karjeras iespējām nozarē, MASOC jau kopš 2015. gada septembra īsteno projektu TehnoBuss.

TehnoBuss ir uz autobusa platformas izveidota mobila demonstrāciju laboratorija, kura ir aprīkota ar mūsdienīgiem, pilnas funkcionalitātes tehnoloģiskajiem stendiem, iekārtām un dažādu materiālu automatizētas apstrādes darba galdiem, kurus skolu jaunieši nodarbību laikā var ne vien aplūkot, bet arī paši izmēģināt.

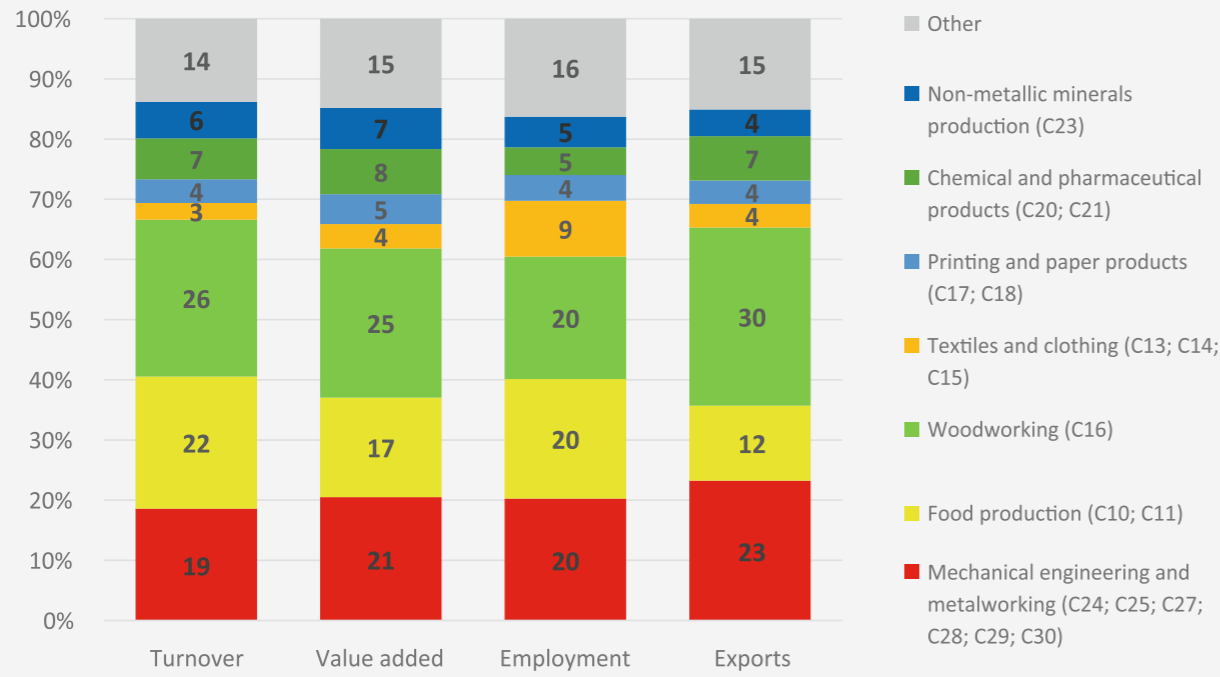

Šogad rit septītā TehnoBussa sezona, un līdz šim tas ir sniedzis lekcijas jau gandrīz 410 skolās visos Latvijas reģionos, tā nodarbības ir apmeklējuši 43 300 skolēni, un interese par TehnoBussa nodarbībām joprojām ir ļoti augsta.

TehnoBussa darbība ir vērsta uz ciešākas sadarbības veicināšanu starp izglītības iestādēm, darba devējiem un jauniešiem, tādēļ aicinām uz sadarbību mācību iestādes un citus interesentus, kuri atbalsta un ir ieinteresēti veicināt jauniešu interesi par izglītību un profesionālo ceļu inženierzinātnēs.

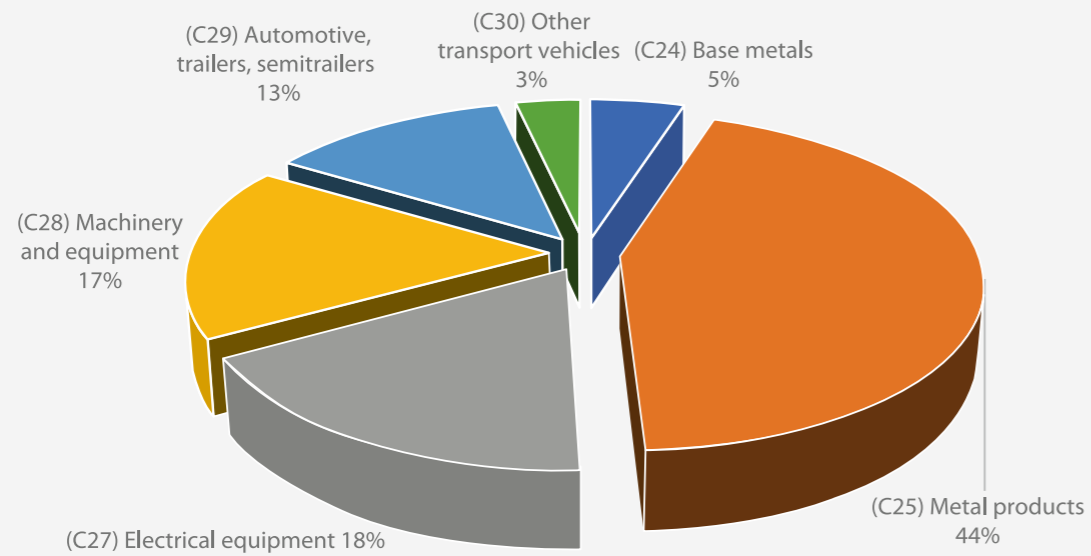

Tehnobuss arī sadarbojas un regulāri piedalās izstādēs, reģionālos pasākumos un karjeras izvēles rīkotajos pasākumos kā Tech Industry, "Metāla dienas" Jelgavā, LIAA Jaunrades un tehnoloģiju festivāls iNovuss, VIAA SkillsLatvia 2019 u.c., piedalījies vasaras nometnēs, kā arī ir sadarbojies un pabijis pie mūsu kaimiņiem Lietuvā un Igaunijā

Turnover in 2019 EUR: 1 10 045
Main markets: Germany; Latvia; Norway; Sweden; Denmark; Finland; Lithuania; Estonia
Year of foundation: 2012

Business profile: "CNC SAAN", LTD main business profiles are CNC machining and steel structures manufacturing. Company was established by professionals, who have gained experience in international manufacturing sectors and are able to provide high quality solutions for customers. Company provides services as a subcontractor for small and medium volumes to customers, that specialize in production fields as Energetic, Agriculture, Oil and Gas, Railway and Wind energy industries. "CNC SAAN", LTD have CMM measuring machine and 16 diferent CNC machine centrs, where maximum machining parameters are: milling (horizontal and vertical) - max 6000 x 1260 x 1750 mm, turning up to D 700 x 3000mm and 5 axis turning - milling centrs. Involving our collaboration partners "CNC SAAN", LTD also provides the following services like hardening, galvanizing, anodization and painting. Company is looking for partners in various industry sectors to cooperate in CNC machining and steel structures manufacturing

Looking for cooperation in the area of: Company is looking for partners in various industry sectors to cooperate in CNC machining and Welding for various steel structures

Technology facilities in company: Tests; Cutting; Sawing; Machining; Turning; CNC turning; Milling; CNC milling; CNC machining centres; Welding; MIG/MAG welding; TIG welding; 3D coordinate measuring (CMM)

Certificates in use: ISO 9001:2015

Number of employees: 7
Turnover in 2021 EUR: 87 030
Turnover in 2020 EUR: 29 711
Turnover in 2019 EUR: 49 851
Main markets: Germany; Latvia; Estonia; Poland; United Arab Emirates
Year of foundation: 1886

Business profile: The company has two lines of business: 1. Casting, forging of the desired shape from any type of lead or lead alloy. The company manufactures lead shot and bullets, ballast lead shot, lead and aluminum seals. 2. Production of products for the aviation industry according to customer drawings from steel, stainless and heat-resistant steel, aluminum, titanium, brass and plastic. We offer production of high precision parts and products with special requirements for quality and durability. We accept orders from one prototype to hundreds of parts. That we also provide services in the production on the basis of soft metals (Pb, Zn, etc.) Production of smooth-bore ammunition, production of plastic parts up to 150 g. We are interested in placing orders with manufacturers who have modern equipment and production methods with a modern metal product quality control laboratory

Looking for cooperation in the area of: Outsourced production based on soft metals (Pb, Zn etc.) Ammunition manufacturing. Plastic parts manufacturing up to 150g weight. Interested in placing orders with manufacturers who have modern CNC-machinery and production methods. Interested in cooperation with companies that have modern laboratories for quality control of metal products

Technology facilities in company: Casting of non-ferrous metal ingots; Casting of plastics

Languages: Latvian; English; Russian

Number of employees: 19
Turnover in 2021 EUR: 530 000
Turnover in 2020 EUR: 74 273
Main markets: Latvia; Denmark; Finland; Central Europe; Northern Europe
Year of foundation: 2019

Business profile: Company that specializes in mechanical part manufacturing using multi axis milling and turning technologies. Providing full cycle manufacturing – machining, surface coating, assembling, testing, inspection in quality laboratory. Providing product manufacturing for various industries – renewable energy, industrial equipment, aerospace and others. Part sizes from 5mm till 1000mm in dimensions for all operations. Able to produce different complexity parts in high tolerances up to 0,008mm. Accuracy is ensured by using latest CNC technologies and precision is ensured by measuring products in measuring laboratory. Technology facilities that are used in company: 3 axis milling; 3+2 axis milling; 5 axis milling; automated turning centres with driven tool capabilities; 9 axis mill-turn machining; coordinate measuring (CMM); surface roughness measuring
Looking for cooperation in the area of: Mechanical part machining and assembling services from various industries
Technology facilities in company: Cutting; Sawing; Machining; Automatic lathes; CNC machining centres; CNC milling; CNC turning; Tests; 3D coordinate measuring (CMM)
Certificates in use: ISO 9001:2015; ISO 14001:2015; ISO 45001:2018

GOODSTEEL

Legal form: Ltd.
Reg. No.: 40203174452
Legal address: "Vītiņkalni", Krustiņi,
 Inčukalna pag.,
 Siguldas nov., LV-2141
Address: Atlantijas iela 23,
 Rīga, LV-1015

Number of employees: 6
Turnover in 2021 EUR: 300 000
Turnover in 2020 EUR: 210 846
Turnover in 2019 EUR: 54 190
Main markets: Latvia; Lithuania; Estonia
Year of foundation: 2018

Business profile: Production, design and assembly of various metal constructions. We create many different types of metal structures using the latest in metalworking technologies. We work together with each of our clients to find the best solutions. Main services: Metal and aluminium structures - Design items; Metalworking; Turning; Milling; TIG, MIG-MAG welding; Cutting and folding; Galvanization and powder painting; Delivery and installation. Our products are mostly made of stainless steel and black steel. We can both powder paint and galvanize selected metal products to order, and combine them with other materials (wood, glass, plastic, composite panels, etc.)
Looking for cooperation in the area of: Food production equipment, much different stainless-steel products, many different metal design products, individual solutions for construction sites
Technology facilities in company: Cutting; CNC Laser cutting; Sawing; CNC plasma cutting; CNC punching (perforating); Stamping; Plastic deformation; Sheet metal bending; CNC Sheet metal bending; Roll bending; Roll forming; Surface treatment; Shot blasting; Powder coating; Welding; MIG/MAG welding; TIG welding

GRANĪTS

Legal form: Ltd.
Reg. No.: 50103001171

Number of employees: 32
Turnover in 2021 EUR: 24 164 648
Turnover in 2020 EUR: 12 172 610
Turnover in 2019 EUR: 13 548 211
Main markets: EU; Russia
Year of foundation: 1991

Business profile: The company is specializing in pallet collar hinge production – with current production amounts of more than 3.5 million hinges and more than 1100 mt of metal processed per month. We are currently among the European leading firms in this industry. Furthermore, we are producing rivets for pallet collars. Moreover, we sell hot dipped galvanized (HDG) metal and possess steel slitting line for cutting metal coils, if required.
Looking for cooperation in the area of: Taking into account our experience, available technologies and direct partnership with steel manufacturers, we also offer progressive stamping of steel parts in very large amounts. Furthermore, we are offering EDM cutting on our AgieCharmilles CUT 300Sp machine. And we are specializing in small part powdercoating on our new automatic line
Technology facilities in company: Shearing; Sawing; Wire erosion (EDM); Stamping; Coil stamping; Slitting; Turning; CNC milling; CNC machining centres; Surface grinding; Electrical discharge machining (EDM); Powder coating; Hardening; Production of stamps; Production of moulds and dies

IN-METAL

Turnover in 2020 EUR: 1 597 935
Turnover in 2019 EUR: 1 190 771
Main markets: Germany; United Kingdom; Norway; Sweden; Finland; Lithuania; Estonia; France
Year of foundation: 1993

Business profile: Company's core business is designed and producing home, garden and catering appliances for smoking fish, meat, chicken, cheese and vegetables. Our smokehouses are ideally suitable for various locations: garden, terrace, holiday house or camping site (easy to build-in or place on a podest). The technology developed by us ensures excellent temperature and air circulation control, which guarantees the highest quality end-result even in harsher weather conditions. We offer professional, yet affordable smoking solutions for everyday private usage and also catering. The company developed additional products, such as equipment ensuring cold smoking possibility and an electric smokehouse
Looking for cooperation in the area of: Representative dealers and DIY store chains
Technology facilities in company: Sawing; CNC plasma cutting; Turning; Milling; Sheet metal bending; CNC Sheet metal bending; Tube bending; Powder coating; MIG/MAG welding; TIG welding; Spotwelding

Year of foundation: 1998

Business profile: Small and flexible family company involved in precise metal working, mostly operating as sub-contractor who is specialized in SHEET METAL PROCESSING and MACHINING by producing from simple to complex and precise components, sub-assemblies and final products made of steel, stainless steel, aluminium and other materials for different industries incl. OFF-SHORE, FOOD, WOODWORKING, MECHANICAL ENGINEERING, CONSTRUCTION and other industries. We are able to carry out very small as well as large scale (up to 6700x3600x2000mm) projects by using CNC Laser cutting, CNC water jet cutting, CNC sheet metal bending, CNC roll bending, CNC tube bending, NC shearing, NC sawing, CNC turning, CNC 9-axis multi-functional turning and CNC milling machine-tools
Looking for cooperation in the area of: Manufacture of precise metal parts and assemblies with CNC machining and CNC sheet metal processing machine-tools
Technology facilities in company: Shearing; CNC Laser cutting; CNC Tubular laser cutting; Sawing; Water jet cutting; Stamping; Turning; CNC turning; Milling; CNC milling; CNC machining centres; Surface grinding; Planing, shaping and slotting; Sheet metal bending; CNC Sheet metal bending; Roll bending; CNC roll bending; Tube bending; CNC tube bending; Wire bending; MIG/MAG welding; TIG welding; Spotwelding

METAL meistar

METALWORKING IN LARGE SCALE

5 AXIS MACHINING
 up to 6700 x 3600 x 2000mm

LASER CUTTING
 up to 6250 x 2500 x 30mm

OUR CAPACITY

17 World-class CNC machines
 >30 various manual machines
 >400 tons of metal under roof
 3000m² total production space

Year of foundation: 2003

Business profile: Manufacturing of prototypes. We provide full cycle of industrial prototype manufacture and assembly. Machining of most of the parts onsite. Carbon steel, stainless steel, bronze, copper and plastic parts manufacture in small batches. Parts restoration using plasma sputtering technology. Gear hobbing. Machining works (drilling, CNC turning, CNC milling, turning and milling), Waterjet cutting, CNC laser, CNC press brake, Welding
Looking for cooperation in the area of: Non-standard industrial equipment manufacture. Small batch and pilot series parts/equipment
Technology facilities in company: CNC Laser cutting; Sawing; Water jet cutting; Turning; CNC turning; Milling; CNC milling; Surface grinding; Gear making; Planing, shaping and slotting; CNC Sheet metal bending; Roll bending; Shot blasting; Wet painting; Hardening; Carburizing; Shield-metal arc welding; MIG/MAG welding; TIG welding; Brazing; Soldering; Mechanical property tests of metal
Certificates in use: ISO 9001; ISO 14001; EN 3834-2

Year of foundation: 2014

Business profile: SIA METLAT specialises in metal products manufacturing. Our company works with variety of metals. METLAT produces different kinds of products made of sheet metal. The wide range of products includes both simple and advanced technology production (mailboxes, postal equipment, trading equipment, furniture made of metal, office furniture, medical, food and load carriages, individual orders). METLAT's mission is simple: to provide high-quality services in a timely manner. Our team takes care of the specific needs of each project to ensure excellence
Looking for cooperation in the area of: Metalworking industry, woodworking industry, building industry, communal services, trade and catering, advertising and design
Technology facilities in company: Cutting; Shearing; CNC Laser cutting; CNC punching (perforating); Plastic deformation; Sheet metal bending; CNC Sheet metal bending; Surface treatment; Shot blasting; Powder coating; Polishing, buffing; Welding; MIG/MAG welding; TIG welding; Spotwelding

METPRO

Legal form: Ltd.

Number of employees: 107
Turnover in 2021 EUR: 7 000 000
Turnover in 2020 EUR: 5 600 000
Turnover in 2019 EUR: 6 000 000
Main markets: Germany; United Kingdom; EU; USA; Norway; Sweden; Finland; Netherlands
Year of foundation: 2010

Business profile: Production of conveyors for different material handling, enclosures, tanks, mining equipment, coolers for power generators, transformer tanks, chassis, platforms/ lifts for car recovery industry, car transporter components, agricultural equipment, different other welded steel fabrications. Max. overhead lifting capacity – 30 t
Looking for cooperation in the area of: Welded steel fabrications - MIG/TIG welding, production of equipment against customer drawings including final assemblies and testing, production of stainless steel structures, drilling, tapping, blasting, painting, assemblies, relatively large in size and weight fabrications/enclosures
Technology facilities in company: Tests; Cutting; Sawing; CNC punching (perforating); Machining; Turning; Plastic deformation; Roll bending; CNC roll bending; CNC tube bending; Surface treatment; Shot blasting; Wet painting; Welding; MIG/MAG welding; TIG welding; Non-destructive tests (NDT)
Certificates in use: ISO 9001; OHSAS 18001; ISO 14001; ISO 3834-2:2006; OHSAS 18001:2007; ISO 9001:2015; ISO 14001:2015; EN 1090-2:2018; ISO 50001:2011; ISO/IEC 80079-34:2011 (Directive 2014/34/EU, Annex IV); EN1090-2 Exc3; EN ISO 3834-2; ISO45000:2018

Steel Fabrication Manufacturer

WELDED STEEL FABRICATIONS

"Build to print" sub-contractor in welded steel fabrications, surface treatments & final assembly.

Complete production cycle within the company from cutting till final assemblies including final product testing. Production facilities are based in Jelgava, Latvia with total production space of 11.000 m².

OUR CONTRACTS

- ✓ Transformer Tanks
- ✓ Chassis for mining industries
- ✓ Coolers for power generators
- ✓ Industrial Mixers
- ✓ Conveyor systems for bulk materials
- ✓ Storage tanks and silos
- ✓ Car transporter components
- ✓ Hydraulic tanks
- ✓ Enclosures
- ✓ Lumber conveyor systems

APPROVALS IN USE

- ✓ ISO 9001:2015
- ✓ EN 1090-1:2018 EXC 3
- ✓ ISO/IEC 80079-34:2011
- ✓ ISO 45001
- ✓ ISO 14001:2015
- ✓ ISO 50001:2011
- ✓ ISO EN 3834-2
- ✓ ISO 9606-1

Year of foundation: 1999

Business profile: HansaMatrix AS is a Baltic electronic system product developer and manufacturer. The company focuses on industrial systems, data network infrastructure, Internet of Things, medical and other business-to-business market segments. The group offers products and services like electronic optics and imaging, Internet of Things, smart city solutions, liquid crystal and optical devices, scientific and medical equipment, robotics and automation, product engineering services, test systems development, rapid prototype manufacturing, optical and display system manufacturing, and quality management systems. Pilot production, optical device manufacturing and assembling, high precision metal and plastic part manufacturing and assembling, research and product development services: optomechanical system designing, prototyping and industrialisation. High speed composite material milling
Looking for cooperation in the area of: Cooperation partners for: Milled, turned mechanical parts and assemblies; Composite (epoxy, glass fiber, ect.) material parts; Optomechanical system manufacturing, assembling and industrialization
Technology facilities in company: Cutting; Sawing; Machining; Turning; CNC turning; Milling; CNC milling; CNC machining centres; Welding; Soldering; Other technologies; Design services CAD; Rapid prototyping
Certificates in use: ISO 9001:2015; ISO 14001:2015; ISO 13485:2016

ENGINEERING PROBLEMS REALIZATION COMPANY

TRIZ is a 31-years old company of qualified specialists in machine-building (compressor, turbine and pump units). Nowadays TRIZ possesses its own engineering department, manufacturing division of mechanic and thermal metalworking, assembly and balancing site.

The company is licensed to perform work in chemical, oil and gas industries in projecting, repair, modernization, author's supervision, diagnostic of the dynamic equipment, its separate assemblies.

The main products: rotors and flow parts of centrifugal compressors and pumps, damping journal and thrust bearing, flexible couplings, labyrinth, lunc and floating end seals, details due to the customer's drawings.

The main service: modernization, reconstruction, repair and complex service of the dynamic equipment.

TRIZ's products have a trade mark and more than 200 patents. Engineering solutions possess a modern scientific level with accordance to API standards.

TRIZ with its huge potential is ready to solve any tasks in calculations, manufacturing, modernization to improve performance and reliability of the dynamic equipment.

SSAB Laser®

OPTIMIZED FOR YOU

- ▶ Superior steel cleanliness
- ▶ Optimized and consistent chemistry
- ▶ Narrow and consistent dimensional tolerances
- ▶ Properties always exceeding EN standards
- ▶ Enhanced impact toughness at low temperatures
- ▶ Optimized surface quality for laser cutting
- ▶ Tight nesting with shared cutting lines
- ▶ High quality cut edges even at high cutting speeds
- ▶ Flatness deviation of cut parts ≤ 3.0 mm/m
- ▶ Predictable and repetitive performance in cold forming
- ▶ Same bending guarantees for all directions
- ▶ Inner bending radius 0.0 x thickness for MC Plus grades

The beginning of a successful career – RTU OLAINĒ TECHNOLOGY COLLEGE!

Vocational secondary education programs
Applicants are admitted with primary school education after the 9th grade

- ✓ Chemical technologies
- biotechnological process technician
- analytical chemistry technician
- perfumery and cosmetics process technician (duration of studies 4 years)
- ✓ Food quality control (duration of studies 4 years)
- ✓ Engineering mechanics (duration of studies 4 years or AFTER SECONDARY SCHOOL 1,5 years)

RTU OLAINĒS TEHNOLOĢIJU KOLEDŽA

You will have a chance:

- ✓ Get perspective education
- ✓ Practically work in laboratories
- ✓ Go to practice
- ✓ Meet industry professionals
- ✓ Participate in Erasmus+ projects
- ✓ Engage in extracurricular activities
- ✓ Play sports, dance, sing
- ✓ Receive a scholarship
- ✓ To live in a service hotel

Professional higher education study programs (1st level)
Applicants are admitted with general secondary education (12th grade) or vocational secondary education

- ✓ Biotechnology (duration of studies 2,5 years/3 years full-time/part-time studies)
- ✓ Environmental protection technology (duration of studies 2,5 years)
- ✓ Food quality control (duration of studies 2 years)
